

# **TABLES**

## **LIST OF TABLES**

Table 7.1	The association between consumption and procurement as determined by the 24-H-R, QFFQ and the FPHIQ: South Africa 1999
Table 7.2	The association between consumption and food inventory as determined by the 24-H-R, QFFQ and the FPHIQ: South Africa 1999
Table 7.3	The source of procuring the 6 most common food items as determined by the FPHIQ (n = 2812): South Africa 1999
Table 7.4	The place of purchasing the 6 most common food items as determined by the FPHIQ (n = 2812): South Africa 1999
Table 7.5	The frequency of purchasing the 6 most common food items as determined by the FPHIQ (n= 2812): South Africa 1999
Table 7.6	The place of storing the 6 most common food items as determined by the FPHIQ (n= 2812): South Africa 1999
Table 7.7	Maize: The source of food as determined by the FPHIQ (n = 2809): South Africa 1999
Table 7.8	Maize: The type used as determined by the FPHIQ (n = 2822): South Africa 1999
Table 7.9	Percentage of HHs in selected* provinces in which maize is procured by growing/milling, as part of pay or by domestic milling: South Africa 1999
Table 7.10	Maize: The brand names purchased as determined by the FPHIQ (n = 2515): South Africa 1999
Table 7.11	Maize: The frequency of purchase as determined by the FPHIQ (n = 2662): South Africa 1999
Table 7.12	Maize: The place of purchase as determined by the FPHIQ (n = 2651): South Africa 1999
Table 7.13	Maize: The amount purchased as determined by the FPHIQ (n = 2664): South Africa 1999

---

Table 7.14	Sugar: The source of purchase as determined by the FPHIQ (n = 2618): South Africa 1999
Table 7.15	Sugar: The frequency of purchase as determined by the FPHIQ (n = 2610): South Africa 1999
Table 7.16	Sugar: The place of purchase as determined by the FPHIQ (n = 2680): South Africa 1999
Table 7.17	Sugar: The amount purchased as determined by the FPHIQ (n = 2599): South Africa 1999
Table 7.18	Sugar: The brand purchased as determined by the FPHIQ (n = 2480): South Africa 1999
Table 7.19	Whole milk: The source of food as determined by the FPHIQ (n = 1783): South Africa 1999
Table 7.20	Whole milk: The frequency of purchase as determined by the FPHIQ (n = 1669): South Africa 1999
Table 7.21	Whole milk: The place of purchase as determined by the FPHIQ (n = 1659): South Africa 1999
Table 7.22	Whole milk: The amount purchased as determined by the FPHIQ (n = 1662): South Africa 1999
Table 7.23	Whole milk: The type purchased as determined by the FPHIQ (n = 1795): South Africa 1999
Table 7.24	Tea: The source of food as determined by the FPHIQ (n = 2202): South Africa 1999
Table 7.25	Tea: The frequency of purchase as determined by the FPHIQ (n = 2194): South Africa 1999
Table 7.26	Tea: The place of purchase as determined by the FPHIQ (n = 2189): South Africa 1999
Table 7.27	Tea: The amount purchased as determined by the FPHIQ (n = 2184): South Africa 1999
Table 7.28	Tea: The brand purchased as determined by the FPHIQ (n = 1934): South Africa 1999*
Table 7.29	Brown Bread: The source of food as determined by the FPHIQ (n = 1455): South Africa 1999
Table 7.30	Brown bread: The frequency of purchase as determined by the FPHIQ (n = 1430): South Africa 1999

---

Table 7.31	Brown bread: The amount purchased as determined by the FPHIQ (n = 1402): South Africa 1999
Table 7.32	Brown bread: The place of purchase as determined by the FPHIQ (n = 1422): South Africa 1999
Table 7.33	Brown bread: The type purchased as determined by the FPHIQ (n = 1458): South Africa 1999
Table 7.34	White Bread: The source of food as determined by the FPHIQ (n = 1866): South Africa 1999
Table 7.35	White bread: The frequency of purchase as determined by the FPHIQ (n = 928): South Africa 1999
Table 7.36	White bread: The amount purchased as determined by the FPHIQ (n = 835): South Africa 1999
Table 7.37	White bread: The place of purchase as determined by the FPHIQ (n = 819): South Africa 1999
Table 7.38	Brown flours: The source of food as determined by the FPHIQ (n = 99): South Africa 1999
Table 7.39	Brown flours: The frequency of purchase as determined by the FPHIQ (n = 96): South Africa 1999
Table 7.40	Brown flours: The place of purchase as determined by the FPHIQ (n = 93): South Africa 1999
Table 7.41	Brown flours: The amount purchased as determined by the FPHIQ (n = 94): South Africa 1999
Table 7.42	Brown flours: The type purchased as determined by the FPHIQ (n = 102): South Africa 1999
Table 7.43	White flours: The source of food as determined by the FPHIQ (n = 1922): South Africa 1999
Table 7.44	White flours: The amount purchased as determined by the FPHIQ (n = 1914): South Africa 1999
Table 7.45	White flours: The frequency of purchase as determined by the FPHIQ (n = 1911): South Africa 1999
Table 7.46	White flours: The place of purchase as determined by the FPHIQ (n = 1908): South Africa 1999
Table 7.47	White flours: The type purchased as determined by the FPHIQ (n = 1930): South Africa 1999

---

Table 7.48	Bread*, maize**, sugar*** or combinations thereof procured in households, by province and area of residence, as determined by the FPHIQ: South Africa 1999
Table 7.49	Hard margarine/Cooking fat: Food type as determined by the FPHIQ (n = 1875): South Africa 1999
Table 7.50	Hard margarine/Cooking fat: The source of food as determined by the FPHIQ (n = 1871): South Africa 1999
Table 7.51	Hard margarine/Cooking fat: The frequency of purchase as determined by the FPHIQ (n = 1864): South Africa 1999
Table 7.52	Hard margarine/Cooking fat: The place of purchase as determined by the FPHIQ (n = 1862): South Africa 1999
Table 7.53	Hard margarine/Cooking fat: The amount purchased as determined by the FPHIQ (n = 1853): South Africa 1999
Table 7.54	Hard margarine/Cooking fat: The brand purchased as determined by the FPHIQ (n = 1934): South Africa 1999*
Table 7.55	The number of food items procured by the household as determined by the FPHIQ: South Africa 1999
Table 7.56	The number of food items in the household inventory as determined by the FPHIQ: South Africa 1999
Table 7.57	Frequency of food items procured by families in South Africa (n = 2812) as determined by FPHIQ
Table 7.58	Frequency of food items procured by families in the Eastern Cape (n = 426) as determined by the FPHIQ
Table 7.59	Frequency of food items procured in the Free State (n = 208) as determined by FPHIQ
Table 7.60	Frequency of food items procured by families in Gauteng (n = 373) as determined by FPHIQ
Table 7.61	Frequency of food items procured by families in KwaZulu/Natal (n = 547) as determined by FPHIQ
Table 7.62	Frequency of food items procured by families in Mpumalanga (n = 162) as determined by FPHIQ

---

Table 7.63	Frequency of food items procured by families in Northern Cape (n = 157) as determined by FPHIQ
Table 7.64	Frequency of food items procured by families in Northern Province (n = 357) as determined by FPHIQ
Table 7.65	Frequency of food items procured by families in North West province (n = 226) as determined by FPHIQ
Table 7.66	Frequency of food items procured by families in Western Cape (n = 356) as determined by FPHIQ
Table 7.67	Frequency of food items in the HH inventory in South Africa (n = 1728) as determined by FPHIQ
Table 7.68	Frequency of food items in the HH inventory in the Eastern Cape (n = 351) as determined by the FPHIQ
Table 7.69	Frequency of food items in the HH inventory in Free State (n = 180) as determined by FPHIQ
Table 7.70	Frequency of food items in the HH inventory in Gauteng (n = 152) as determined by FPHIQ
Table 7.71	Frequency of food items in the HH inventory in KwaZulu/Natal (n = 313) as determined by FPHIQ
Table 7.72	Frequency of food items in the HH inventory in Mpumalanga (n = 149) as determined by FPHIQ
Table 7.73	Frequency of food items in the HH inventory in Northern Cape (n = 64) as determined by FPHIQ
Table 7.74	Frequency of food items in the HH inventory in Northern Province (n = 341) as determined by FPHIQ
Table 7.75	Frequency of food items in the HH inventory in North West province (n = 112) as determined by FPHIQ
Table 7.76	Frequency of food items in inventory by families in Western Cape (n = 66) as determined by FPHIQ
Table 7.77	Frequency of food items eaten by children in South Africa as determined by the 24-H-R (n = 2868)
Table 7.78	Frequency of food items eaten by children in South Africa (n = 1738) as determined by the 24-H-R and according to HH income as determined by the S-DQ: annual HH income R ≤ 12000

---

Table 7.79	Frequency of food items eaten by children in South Africa (n = 744) as determined by the 24-H-R and according to HH income as determined by the S-DQ: annual HH income R $\geq$ 12000
Table 7.80	Frequency of food items eaten by children in South Africa (n = 1373) as determined by the 24-H-R and according to HH income as determined by the Census 1996: annual HH income R $\leq$ 12000
Table 7.81	Frequency of food items eaten by children in South Africa (n = 1496) as determined by the 24-H-R and according to HH income as determined by the Census 1996: annual HH income R $\geq$ 12 000
Table 7.82	Frequency of food items eaten by children in South Africa (n = 2883) as determined by the QFFQ
Table 7.83	Frequency of food items eaten by children in South Africa (n = 1748) as determined by the QFFQ and according to HH income as determined by the S-DQ: annual HH income R $\leq$ 12000
Table 7.84	Frequency of food items eaten by children in South Africa (n = 1748) as determined by the QFFQ and according to HH income as determined by the S-DQ: annual HH income R $\geq$ 12000
Table 7.85	Frequency of food items eaten by children in South Africa (n = 1375) as determined by the QFFQ and according to HH income as determined by the Census 1996: annual HH income R $\leq$ 12000
Table 7.86	Frequency of food items eaten by children in South Africa (n = 1508) as determined by the QFFQ and according to HH income as determined by the Census 1996: annual HH income R $\geq$ 12000
Table 7.87	Frequency of food items procured by families in South Africa (n = 2804) as determined by FPHIQ

---

Table 7.88	Frequency of food items procured by families in South Africa (n = 1713) as determined by the FPHIQ and according to HH income as determined by the S-DQ: annual income $R \leq 12000$
Table 7.89	Frequency of food items procured by families in South Africa (n = 725) as determined by the FPHIQ and according to HH income as determined by the S-DQ: annual income $R \geq 12000$
Table 7.90	Frequency of food items procured by families in South Africa (n = 1357) as determined by the FPHIQ and according to HH income as determined by the Census 1996: annual income $R \leq 12000$
Table 7.91	Frequency of food items procured by families in South Africa (n = 1447) as determined by the FPHIQ and according to income as determined by the Census 1996: annual income $R \geq 12000$
Table 7.92	Frequency of food items in the HH inventory in South Africa (n = 1728) as determined by FPHIQ
Table 7.93	Frequency of food items in the HH inventory in South Africa (n = 1180) as determined by FPHIQ and according to HH income as determined by the S-DQ: annual income $R \leq 12000$
Table 7.94	Frequency of food items in the HH inventory in South Africa (n = 313) as determined by FPHIQ and according to HH income as determined by the S-DQ: annual income $R \geq 12000$
Table 7.95	Frequency of food items in the HH inventory in South Africa (n = 1215) as determined by FPHIQ and according to HH income as determined by the Census 1996: annual income $R \leq 12000$
Table 7.96	Frequency of food items in the HH inventory in South Africa (n = 513) as determined by FPHIQ and according

to HH income as determined by the Census 1996: annual income  $R \geq 12000$

- Table 7.97 The number of food items procured by households as determined by the FPHIQ (n = 2812) and according to HH income as determined by the Census 1996: South Africa 1999
- Table 7.98 The number of food items procured by households as determined by the FPHIQ (n = 2812) and according to HH income as determined by the S-DQ: South Africa 1999
- Table 7.99 The number of food items in the HH inventory as determined by the FPHIQ (n = 1728) and according to HH income as determined by the Census 1996: South Africa 1999
- Table 7.100 The number of food items in the HH inventory as determined by the FPHIQ (n = 1728) and according to HH income as determined by the S-DQ: South Africa 1999
- Table 7.101 The number of food items consumed by children as determined by the QFFQ (n = 2883) and according to HH income as determined by the Census 1996: South Africa 1999
- Table 7.102 The number of food items consumed by children as determined by the QFFQ (n = 2883) and according to HH income as determined by the S-DQ: South Africa 1999
- Table 7.103 The number of food items consumed by children as determined by the 24-H-R (n = 2869) and according to HH income as determined by the Census 1996: South Africa 1999
- Table 7.104 The number of food items consumed by children as determined by the 24-H-R (n = 2869) and according to HH income as determined by the S-DQ: South Africa 1999

Table 7.105	The mode of transport to buy food by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.106	Own crop production by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.107	Possession of own livestock by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.108	The type of crop grown by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.109	Proportion of maize (own crop) consumed in own household by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.110	Proportion of maize (own crop) consumed in own household by area of residence as determined by the FPHIQ: South Africa 1999
Table 7.111	Proportion of root vegetables (own crop) consumed in own household by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.112	Proportion of root vegetables (own crop) consumed in own household by area of residence as determined by the FPHIQ: South Africa 1999
Table 7.113	Proportion of other vegetables (own crop) consumed in own household by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.114	Proportion of other vegetables (own crop) consumed in own household by area of residence as determined by the FPHIQ: South Africa 1999
Table 7.115	Proportion of imifino/herbs (own crop) consumed in own household by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.116	Proportion of imifino/herbs (own crop) consumed in own household by area of residence as determined by the FPHIQ: South Africa 1999

---

Table 7.117	The type of livestock owned by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.118	The usage of other storage methods to keep food by province and area of residence as determined by the FPHIQ: South Africa 1999
Table 7.119	The type of other storage methods to keep food as determined by the FPHIQ: South Africa 1999
Table 7.120	The type of foods stored as determined by the FPHIQ: South Africa 1999
Table 7.121	The number of food items in the HH inventory as determined by the FPHIQ (n = 1439*) and the number of food items consumed by children as determined by the 24-H-R (n = 2482*) and according to HH income as determined by the S-DQ: South Africa 1999
Table 7.122	The number of food items procured by households as determined by the FPHIQ (n = 2443*) and the number of food items consumed by children as determined by the QFFQ (n = 2494*) and according to HH income as determined by the S-DQ: South Africa 1999
Table 7.123	Food items procured by families (n = 2812) and food items in the HH inventory (n = 1728) as determined by FPHIQ in relation to food items eaten by children as determined by the 24-H-R (n = 2868) and as determined by the QFFQ (n = 2883): South Africa 1999. (All frequencies are shown as percentages).
Table 7.124	Frequency of food items in the HH inventory as determined by the FPHIQ and the frequency of food items consumed by children as determined by the 24-H-R in relation to HH income as determined by the S-DQ: South Africa 1999
